Re: Interim Project Report Ocean Ridge Phase VI

Dear Mayor pro tem Benton and Members of Council:

In accordance with the Subdivision Improvements Agreement between Coastal Communities at Ocean Ridge Plantation, LLC (the "Developer") and the Town of Sunset Beach, we are pleased to provide an interim report to the Town regarding the progress on the above referenced project since the last report submitted on February 22, 2018. As reported previously, the Developer's engineers completed required modifications and design of the Section 2 plans, which were timely submitted to the State and County agencies on or before October 30, 2017, and the Erosion Control Permit and the Water Permit from NCDEQ were received. An update on other relevant items are:

1. The Developer paid BEMC for installation of underground electric in Section 1, and a significant amount has been completed. Work is ongoing, and BEMC crews were working last week in this Section.
2. The Developer is now in receipt of the NCDEQ storm water permit.
3. The Developer's engineer timely submitted modified sewer plans to Brunswick County, received comments, and then submitted the modified plans to NCDEQ for the required state sewer permit. The permit is still in review.
4. As previously noted, the Subdivision Improvements Agreement envisions construction plans (issued for construction set) be finalized February 27, 2018, but also specifically provides that issuance of such plans is dependent upon receipt of the necessary permits. (See paragraph 1(b)). We will keep the Town posted when we receive the sewer permit and are able to finalize the construction plans, as these activities will affect the rest of the schedule.

Please let me know if you have any questions or need additional information on any of the above referenced matters. We sincerely appreciate the cooperation of the Town as we continue to move forward with the development of Ocean Ridge Phase VI.

Sincerely,

Becky K. Noble
